Mission Statement

Leg Attack & Finishing School

The philosophy of this camp is to develop the highest level of confidence in a wrestler to initiate action and attack your opponent using a takedown system that truly covers each and every position that occurs during a leg attack takedown. Over the course of the weekend, we build up the wrestler's knowledge base with elite level information on performing the most effective and most fundamentally sound scoring techniques. The sessions are designed to create a sense of comfort and familiarity with awkward positions and for the wrestlers to always know, "where they are" and "what comes next". Throughout the camp, each technique is dissected and explained.

Our goal is for each wrestler of any age or skill level to begin to see how techniques involved in finishing takedowns is an aspect of wrestling that can be mastered by any wrestler, regardless of their level of athletic ability. This camp is more than just a basket of moves. This camp is going to raise the athletes "Wrestling I.Q." to a level beyond where most wrestlers ever even strive to understand the sport.

~Alan Fried~
